

Hi everyone!

A little context about the upcoming concert at Heritage on 8/27 by Theresa Lindell. Theresa is a dear friend of mine through our Young Adults Bible Study Fellowship class. I've marveled for years at how the Lord blesses her with a passion for pouring over His Word and from it crafting beautiful, insightful, relatable, fun!, lyrics and music. Her music is a creative delight to those who deeply love God's word and a beautiful bridge for those who are less acquainted with the Scriptures. Her songs and stories capture the truth of the Living God who's breathing Life into our hearts and journeys. Please come and be encouraged! Please pray about inviting friends -- I've seen God use her music to stir more hunger for Him in our daily lives!

For a taste of her craft, look for "Theresa Lindell -- The Stories Are True" on [Apple Music](#), [Spotify](#), [YouTube](#), etc. This particular album is a collection of songs she wrote from across the Old Testament. It is fascinating! "[Mephibosheth](#)" is my personal favorite (and I hear she'll be playing it at our concert!). You can also visit her website <http://www.theresalindellmusic.com/> to find her music and background of many of her songs.
